# BD5 DEPOSITING MACHINE

**BAKON designs and manufactures standardized and customized depositing, spraying and cutting machines as well as production lines for efficient and high-volume processing of pastry products. BAKON stands for advanced technology and reliability.**

The BD5 is quickly ready for use and easy to operate. Simply place the product-filled container, bowl or pail underneath the machine, use the pneumatic height setting to lower the suction tube and the BD5 is ready for depositing.

The BD5 is equipped with a handgun and is therefore very suitable for the depositing of individual products.

- Depositing directly from a bowl, container or pail.
- Built of stainless steel and other non-rusting materials.
- Equipped with hose and handgun.
- Extremely suitable for the production of individual products (muffins, cupcakes, desserts, etc.).
- Operating pressure of 4 bar.
- High performance depositing with great accuracy.
- Pneumatic height setting by a foot lever on the mobile carriage.

Capacity: medium to high.

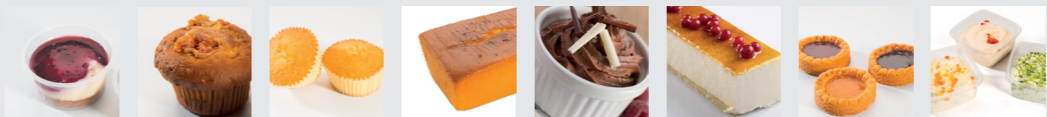

The BD5 DEPOSITOR is available as stand-alone.

Cake batter, muffin batter, sponge cake, mousses, custards and all kinds of fruit fillings (e.g. apple, strawberry, cherry, apricot, etc.).<sup>\*</sup> We underline the importance of understanding your product, ingredients and process in configuring your solution. BAKON will look together with you to increase your productivity.

<sup>\*</sup> We are happy to test your ingredients.

Handgun with hose

**Dosing volume** | The dosing volume is manually set and indicated on the scale

O

**Dosing speed** | The dosing speed can easily be adjusted by means of a rotary knob.

O

Depositing can be done directly out of any bowl, container or pail.

Pneumatic height setting is done by pressing by foot a lever on the mobile frame
